

REMARKS

In the listing of claims the terminology "original" is used for the amendments not amended in this Preliminary Amendment since no amendments were made during Chapter I and II of the PCT process. The amendments to the claims are to delete multiple dependencies or correct typographic errors. New claims, 10- 20, result from correcting the multiple dependency of the originally submitted claims. This is in regards to:

claims 3, 4 and 5 for claim 10;
claim 5 for claim 11;
claim 6 for 4 claims 12, 15, 16 and 19;
claim 7 for 4 claims 13 and 17;
claim 8 for claims 14 and 18;
claim 6 for claim 19 and;
claim 9 for claim 20, respectively.

Applicants reserve the right to reintroduce claims to canceled combined subject matter.

With entry of this amendment to the specification to indicate priority and to the claims prompt substantive examination is earnestly solicited for the captioned patent application.

Date: September 27, 2006

Respectfully Submitted,

Kenneth J. Stachel
